ANNUAL STATEMENT FOR THE YEAR 2017 OF THE AMERIHEALTH CARITAS IOWA, INC.

NOTES TO FINANCIAL STATEMENTS

These items are based on illustrations taken from the NAIC Annual Statement Instructions

1. Summary of Significant Accounting Policies and Going Concern

- A. Accounting Practices  
The financial statements of AmeriHealth Caritas Iowa, Inc. (the Company) are presented on the basis of accounting practices prescribed or permitted by the Iowa Insurance Division (IID).

The IID recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Iowa Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Iowa. The State has adopted certain prescribed or permitted accounting practices that differ from those found in NAIC SAP. Specifically, the State has imposed limitations on the investments held by the Company pursuant to Iowa Statute 515.35. These limitations do not have any monetary effect on net income, surplus or risk based capital.

A reconciliation of the Company's net loss and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Iowa is shown below:

- B. Use of Estimates in the Preparation of the Financial Statements  
The preparation of financial statements in conformity with accounting practices prescribed or permitted by the IID requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates

- C. Accounting Policy  
The Company uses the following accounting policies:
- (1) Short-term investments are stated at amortized cost.
  - (2) Bonds – None
  - (3) Common Stocks – None
  - (4) Preferred Stock – None
  - (5) Mortgage Loans – None
  - (6) Loan-backed securities – None
  - (7) Investments in subsidiaries, controlled and affiliated (SCA) entities – None
  - (8) Investments in joint ventures, partnerships and limited liability companies – None
  - (9) Derivatives – None
  - (10) Anticipated investment income as a factor in premium deficiency calculation – None
  - (11) Accrued Medical Expense/Unpaid Claim Adjustment Expense – Accrued medical expenses and unpaid claims adjustment expenses include medical expenses billed and not paid, an estimate for costs incurred but not reported (IBNR), and estimated costs to process these claims. To estimate the IBNR balance the Company uses the triangulation method. The method of triangulation makes estimates of completion factors, which are then applied to the total paid claims net of coordination of benefits to date for each incurred month. This provides an estimate of the total projected incurred claims and total amount outstanding of claims incurred but not reported. Consideration is also given to changes in turnaround time and claims processing, which may impact completion factors. Substantially all of the IBNR balance as of December 31, 2017 relates to the current year.

The Company determines IBNR in accordance with actuarial principles and assumptions that are commonly used by health insurance actuaries and meet Actuarial Standards of Practice. Actuarial Standards of Practice require that the liabilities be adequate under moderately adverse circumstances. Actuarial estimates are based upon authorized healthcare services, past claims payment experience, member census, and other relevant factors. The Company consistently applies its reserving methodology from period to period and periodically reviews actual and anticipated experience compared to the assumptions used to establish medical costs.

While the Company believes the accrual for medical expenses is adequate, actual results could differ from such estimates. The Company recognizes any change in estimates in medical and hospital expenses in the period in which the change is identified.

- (12) Fixed asset capitalization policy modifications – Furniture and leasehold improvements are designated as "non-admitted assets" and are charged directly to capital and surplus. Electronic data processing (EDP) equipment exceeding three percent of statutory capital and surplus for the most recently filed statement with the IID (adjusted to exclude EDP equipment and deferred taxes) are designated as non-admitted assets and are charged directly to capital and surplus. Depreciation is calculated on a straight-line basis over the estimated useful life of the assets, which ranges from three to seven years. Leasehold improvements are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Maintenance and repairs are charged to operations when incurred.

22. Events Subsequent
  - Type 1 – Recognized subsequent events
  - As of December 31, 2017, the Company recorded a \$5,000,000 capital contribution receivable and corresponding paid in capital, as approved by the IID on February 15, 2018, which was recognized in accordance with SSAP No. 72, *Surplus and Quasi-reorganizations*. On February 26, 2018, \$5,000,000 in cash was received by the Company from Holdings.
  - Type 2 – Nonrecognized subsequent events
  - Subsequent events have been considered through March 1, 2018 for the statutory statement year ending December 31, 2017.
  - The Company is subject to an annual fee under section 9010 of the Federal ACA. This annual fee is allocated to individual health insurers based on the ratio of the amount of the entity’s net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity’s portion of the annual fee becomes payable once the entity provides health insurance for an U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. As of December 31, 2017, the Company has written health insurance subject to the ACA assessment, expects to continue to run out operations during 2018, and estimates its portion of the annual health insurance industry fee to be payable on September 30, 2018 to be \$14,798,963. This amount is reflected in special surplus. This assessment is expected to impact risk based capital (RBC) by 20.3%. Reporting the ACA assessment as of December 31, 2017 would have triggered an RBC action level. On December 18, 2015, the Consolidated Appropriations Act of 2016 placed a moratorium on the ACA assessment, suspending collection of the health insurance fee for the 2017 calendar year (2016 data year). Thus, premiums written during 2016 are not subject to this assessment and segregation of special surplus is not required at December 31, 2016.
